- Knex.js
- Jest.js
- Mocha.js
- Java
- Android Studio
- MySQL
- MongoDB
- Firebase

ABOUT ME

Full Stack developer with almost 2 years of experience in programming.

On front-end I'm experienced with React, Redux, API's integrations, responsive layouts, Atomic Design, Storybook and styling libraries such as styled-components and Material-UI.

On back-end, I've already developed RESTful API's using Node.js and Typescript, and data modeling using both relational and non-relational databases.

I'm familiar with Clean Code principles, Agile Methodology, unit and automated tests.

I have an artistic background as musician and tattoo artist, and currently I'm willing to incorporate these experiences in my developer career.

EXPERIENCE

SOFTWARE ENGINEER

Questrade Financial Group: March 2022 ~ Present

Participating in international agile team responsible for maintaining sites and microsites under questrade.com domain.

Focus on Front-end, working with JavaScript, HTML and CSS using SASS and BEM pattern. Building pages and content with Sitefinity CMS, developing performant websites with high standards in terms of accessibility.
